Mark Grintšin

IT SYSTEMS STUDENT

Mark.grintsin@rak.ee | +372 5895 3512
Portfolio: mark123601.github.io/Portfoolio/

PROFILE

Vocational student in IT systems with practical experience assembling and repairing PCs, PowerShell coursework and network simulation in Cisco Packet Tracer. Seeking a three-month Erasmus+ internship in Spain to contribute to networking and technical support tasks while developing programming and automation skills.

EDUCATION

IT Systems Junior Specialist programme
Rakvere Ametikool, Estonia | 2025 - present

Basic education | Rakvere Reaalkool, Estonia | 2016 - 2025

TECHNICAL SKILLS

- **PowerShell:** School scripting and Windows administration assignments using variables, arrays, conditional statements and loops.
- **Networking:** Practical use of Cisco Packet Tracer in school network labs.
- **PC hardware:** Assembly, disassembly, troubleshooting and repair.
- **Linux and Bash:** Beginner; currently working with guidance. Python: introductory knowledge.

PRACTICAL PROJECTS

Desktop PC repair | Personal experience

Diagnosed a faulty RAM module while troubleshooting a desktop computer. Repaired the PC and restored it to working condition.

Modded Minecraft server | Project with a friend

Used remote access to help set up a server on a friend's PC. Downloaded the server software and added mods; other players successfully connected.

PowerShell administration exercises | School coursework

Worked on scripting exercises and administration assignments covering file systems, permissions, processes, backups, app installation, service management and log analysis.

LANGUAGES

Estonian, Russian and English: good proficiency, self-assessed.
